

## Materials

Elleci has a continual program of innovation in respect to the materials used in the manufacturing of granite sinks and has a focus on eco sustainability principles. In the endless pursuit of excellence and with unending research Elleci had created a world class selection of materials to offer to you the customer. Please see the next page for more details on the amazing range of materials available to you when you purchase an Elleci sink from Reginox.

### Keratek +

Introducing an innovative and exclusive material, made up from ceramic nanoparticles and a mix of 6 innovative acrylic resins. With many advantages to Keratek+ including hydro repellent, stain resistance, UV protection, thermic shock resistance, impact resistance, and a smoother, harder resistance to abrasion guarantees total protection against bacteria. Warranty: 20 years.

100% WATER REPELLENT  
AND STAIN RESISTANT

SMOOTHER, HARDER  
RESISTANCE TO ABRASION

UV PROTECTION

GREATER RESISTANCE TO  
IMPACTS

GREATER RESISTANCE TO  
THERMAL SHOCKS (+50%)

ANTIBACTERIAL PROTECTION

### Metaltek

The chemical composition is made up of natural granite and acrylic resin, like all the sinks manufactured with the technological leadership G.P.S. system, metaltek has an even mass resulting in high resistance to stains, impact and temperature changes. The uniqueness of this product is that the metal particles have been added, giving the product a brilliant and shining finish, the target is to obtain special 'metallic effects'. The different finishes allow a perfect match between the sink and other stainless steel components in the kitchen. Warranty: 10 years.

IMPACTS RESISTANCE

THERMIC SHOCKS RESISTANCE

UV PROTECTION

ANTIBACTERIAL PROTECTION

### Granitek

Granitek is made up of natural granite and acrylic resin, ensuring the best quality and resistance from high temperatures to impacts. Granitek has an appearance like natural stone, ceramization effect is a specific process of the granite particle, is not only on the surface but in the entire mass of the particle, through a firing process at 700°C. Warranty: 10 years.

IMPACTS RESISTANCE

THERMIC SHOCKS RESISTANCE

UV PROTECTION

ANTIBACTERIAL PROTECTION

### Antibacterial protection

Elleci sinks have total antibacterial protection, which has an adequate coverage of the mass, meaning the bacteria is repelled.
